

Denville Community
School Safety and Security Update

May 25, 2018

It is hard to imagine that in the 14 weeks since the Parkland, Florida tragedy there have been seven more shootings in schools across our country. We wanted to take this opportunity to reassure the community that the safety and security of our students and staff is our number one priority.

We have recently had the opportunity to testify to the joint NJ Senate and Assembly Education Committee on security and school-police relations. [Click here for an article on our testimony.](#)

We also co-authored an article on school safety and security and school-police relations for the May/June 2018 issue of School Leader magazine. [Click here to read the article.](#)

We will continue to make this our priority and we are planning a school safety public forum for early in the 2018-19 school year. More information to follow.

In the meantime if you have any questions or concerns please contact us.
